

Room 1

Room 1 students work hard in all that they do, whether its working on a project, helping to clean or strengthening their writing skills.

Ingenuity at its finest! Not only did the students of room 1 build a contraption that allowed them to climb on the side of the slide, but they also delegated Lucia to be the safety inspector and took turns climbing and sliding.

Room 2

My caterpillar is going to have a lot of colors!

-Nicolas

"I'm going to try and do a pattern!"

-Oliver

"I wrote my name! M. I. A!"

-Mia

"I'm using the glue to make my slug extra slimy!"

-Aaron

November 2020

Room 3

Christopher, Hendrix, Lorenzo and Deklyn are discovering the physics of seesaws. As soon as you put weight on one end by sitting on one side of the beam it drops to the ground. This is because the force of gravity is acting on the weight of your body, pulling it and the beam down.

Owls are one of the many celebrated animals during the autumn season. Here we have Claire and Marlowe working hard on their own owls.

When there's slime, there's slime trails!

Justin is working on his slug's slime trail using glue and glitter.

Room 4

Learning about what our bodies need to stay healthy is a big responsibility! Here we have Mirjana and James exploring different ways we teach our younger students about the importance of healthy habits.

Cause & Effect

Braxton demonstrates that in order to build a tall tower, it is best to go slow and stack each block one at a time.

Spatial Awareness

Owen uses his very own personal workstation to explore the many ways to build with foam blocks.

Parents Corner

Talking to children under 5 about Covid-19

The explanation should be factual but very simple. Conversations can be as easy as: In the same way you catch a cold from a friend at school, you stay home to get better. Right now, there is a virus not so different from the viruses that cause colds. It's going around the whole world and, basically, everyone is staying home to try to get better and not pass it to someone else.

HOLIDAYS ARE COMING!

We understand that the upcoming holidays are a time to celebrate and be with family and friends. We also understand that this year may look a bit different. We ask that you please use your best judgement and protect yourself and your loved ones from unnecessary exposure. If you do have to travel, please follow mask and social distancing guidelines. We want to do our best to protect ourselves, our families and our school and school families by being vigilant in our fight against COVID.

Let's Beat This Pandemic Together!
